ORIGIN

- 1. The plans worked out by the Central Administration for the teaching of history were declared good by Professor Metropolsky, Karlshorst, but far too little Marxist in character; therefore, they would be applicable for only one year at most.
- 2. A central breadcasting school, under the auspices of the Central Administration for Education and directed by Oskar Hoffman, is located on the Carmen Sylva Strasse in Berlin-Weissensee. Concerning the work of this school, it is known that even the Marxist students complain that only Marxist teachings are offered on the curriculum.
- 5. New directives have been handed Berlin University by Karlshorst, whereby only organized students will be allowed to study, take state examinations, and be promoted. It is planned to transform the student association into an usactation (Arbeitsgemeinschaft) embracing the students of all institutions of university level.
